## SUMMARY

Cybersecurity professional and Information Technology graduate with knowledge of security fundamentals, threat identification, access control, and incident documentation. Strong background in diagnostics, compliance checks, and technical troubleshooting, with a disciplined, detail-oriented approach to system analysis and risk mitigation. Seeking an entry-level Cybersecurity or SOC Analyst position.

---

## SKILLS

- Cybersecurity Fundamentals & Threat Awareness
- Network & System Troubleshooting
- Risk Assessment & Compliance Monitoring
- Access Control & Security Best Practices
- Incident Documentation & Reporting
- Technical Audits & Inspections
- Analytical Problem Solving
- Attention to Detail
- Time Management & Prioritization
- Team Communication & Collaboration
- Adaptability in Technical Environments
- Process & Workflow Management

---

## EXPERIENCE

### Trailer Technician

June 2024 - January 2026

Amerit Fleet Solutions, Kenosha, WI

- Diagnosed mechanical, electrical, and air-system faults on **tractors and trailers** using advanced **diagnostic scanners and testing tools** to identify root causes efficiently.
- Accomplished **timely repairs and preventive maintenance** on fleet and customer vehicles to minimize downtime and assure DOT compliance.
- Troubled and refurbished **electrical systems, braking systems, and air lines**, ensuring safe and reliable vehicle operation.
- Interacted and completed **parts sourcing and procurement runs** to facilitate rapid repair turnaround and service continuity.

### Mobile Mechanic

July 2021 - June 2024

Diesel and Trailer Mechanics, Winthrop Harbor, IL

- Diagnosed and resolved **on-site mechanical, electrical, and air-system issues**, escalating equipment to shop repair when field resolution was not feasible.
- **Completed DOT inspections and compliance quantification checks**, assured brake adjustments, lighting systems, and safety components encountered regulatory specifications.
- Delivered **exceptional customer service**, sustaining strong client relationships with **Waukesha Foods** while representing the Company with professionalism and technical expertise.
- Implemented routine and corrective **maintenance on tractors and trailers** to facilitate fleet reliability and reduce service disruptions.

### Staff Sergeant

January 2012 - August 2018

US Army National Guard, Beloit, WI

- Led an **ETT (Embedded Train-the-Trainer)** team of 5-20 soldiers, providing technical training and proficiency development for a company of the Afghanistan National Army.

- Served as Shop Foreman, supervising 10 mechanics in preventive maintenance, repairs, and servicing of diesel engines, large trucks, and specialized heavy transport vehicles.
- Conducted routine inspections and maintenance checks, ensuring operational readiness and adherence to brake systems, transmissions, and electronic component standards.
- Trained service teams on **remodel methods, diagnostic tools, pneumatic and welding equipment, and electronic systems**, fostering technical competency and efficiency.
- Led shop logistics, including oversight of 3 interpreters for translation and payroll, while ensuring compliance with **SOPs, safety protocols, and operational schedules**.

### **Staff Sergeant**

June 2002 - July 2010

US Army, Various Domestic & Global Locations

- Performed **diagnosis, repair, and preventive maintenance** on diesel engines, power generating units, and wheeled vehicle systems, ensuring operational readiness.
- Repaired and replaced **engine components, fuel systems, generators, starters, brakes, suspension, steering, and drivetrain elements**, maintaining vehicle reliability.
- Adjusted operating mechanisms and performed **tune-ups** to optimize performance and compliance with safety standards.
- Maintained **accurate maintenance records and forms**, supporting Quality Control and logistical oversight of outgoing vehicles.
- Serviced equipment valued at **\$800K**, implementing **HAZMAT controls and OSHA protocols** to ensure safety and regulatory compliance.

### **Corporal**

July 1997 - July 2001

US Marine Corps, Camp Pendleton, CA

- Charged with diesel Mechanic responsible for motor pool vehicle maintenance.
- Performed corrective maintenance on diesel engines and power generating units including accessories, power trains and chassis components of wheeled vehicles.
- Replaced engine components, fuel pumps, generators, starters, voltage regulators, relays, radiators, universal joints, brake shoes, engine mounts, and lines and fittings.
- Prepared maintenance forms and records, ensuring accuracy and completeness.

## **EDUCATION**

**Bachelor of Science in Cybersecurity (B.S.)** • Full Sail University, Winter Park, Florida

February 2026

Degree.

**Associate of Science in Information Technology** • Full Sail University, Winter Park FL

December 2024

Degree.

## **KEY ACHIEVEMENTS**

- Reduced repair times by 20% through effective diagnostic techniques.
- Increased customer satisfaction by 25% with on-time maintenance services.
- Completed over 500 on-site diagnostics and repairs within budget.
- Trained 15 junior mechanics, improving team productivity by 30%.
